March 2-4, 2018

Friday-Sunday

with **Cynthia Broshi**

Recognizing the Depths by their Actions AND Understanding embryological development as the “individualizing” and manifesting of Universal Energy AND Working with babies, children, parents and parents-to-be.

Bringing us back to Beginning —This class is about the Depths, Trinity Energy (Main Central, Supervisor, Mediator), and the 12 Organ Function. If you feel hazy about who/what these components of the Blueprint are, and how they inter-relate, the development during the 9 Months in the Womb can clarify. Studying the 9 Months helps us understand and recognize the Depths and Flows in the pulse, body, and personality of anyone, from age 0 to age 110!

We will listen to the dramatic story of Life becoming a human Being: Spirit-Heart-Mind-Body. This is a story of individual and of family. Guidance for supporting conception, pregnancy, birth and parenting will be given. Pregnant moms (and dads), babies, children and/or families will visit as hands-on

models during class, helping us develop skills for working with these populations. Each day will also include giving and receiving hands-on sessions, with each student choosing flows to receive that relate to their own development within the womb and to the experiences of their Life.

— Bringing us into All Possibility

Cynthia Broshi was drawn to Jin Shin Jyutsu for the help it gave her daughter, born with a life-threatening illness.

Skeptical yet desperate, her first attempt at “jumper cabling” was full of fear...for about three minutes...when, tensions melting, she found herself captivated by the mysteries and simplicity of this Art. Her studies with Mary Burmeister (1985-1990) were supplemented with frequent hands-on experience with Mary over a ten-year period. Jin Shin Jyutsu has now been her daily practice for 34 years.

From the experience of complementing medical regimens with Jin Shin Jyutsu, Cynthia brings to classes a practicality and a blend of intuition, science and heart. Since 2002 she’s presented JSJ Self-Care, 5-Day Seminars and Special Topic Classes worldwide. A visual artist and poet, her colorful drawings and precise language help to convey this Art’s basic principles and to clarify its intricacies. Cynthia joins us from her home near Santa Fe, New Mexico. Explore her website at www.jsjbroshi.net.
