

## Drawing and Experiencing 12 Organ Function Energy

*"The development of the physical form and the invisible consciousness, voice and energy"*

May 4 - 6, 2018, Santa Fe, NM

The 12 Organ Function Energies are pathways of an energetic frequency that cusps the transition from invisible, Universal energy into visible, "individualized" energy. In this class we'll sense within our own bodies, draw and jumper-cable each of the 12, so that we can get to KNOW their individual frequencies, the capacities they develop and their relationships to one another.

As we **draw each of their pathways**, we'll note:

- ← Which organs, skeletal structures, joints and other **anatomical features** each moves through.
- ← Which **Safety Energy Locks** each moves through.
- ← How their pathways act like dance-steps for the **12 signs of the zodiac**, manifesting and harmonizing physiological, mental, emotional and spiritual BEing.

We will develop **hands-on skill** in utilizing the techniques for harmonizing 12 Organ Function Energy.

Everyone will **give and receive the flow patterns for Left and Right of each of the 12 Organ Functions.**

We will:

→ Experience **opening our inner vision** by sensing into the pathways within our own bodies.

→ Experience **sensing the unique frequency** of each of the 12 Organ Function Energies.

→ Deepen our understanding of their relationships as **Chest, Finger, Face and Toe Flows**.

You will be provided with anatomic charts for each Organ Function that make drawing them easy (no drawing experience necessary!)
