Mentoring Special Topic Class for experienced students-practioners

Friday-Sunday, August 20 - 22, 2021

30 min. outside Santa Fe, New Mexico

This 3-day class is a unique opportunity for study within an intimate group of experienced student/practitioners. Maximum: 6 participants.

Prerequisite: 9 classes and 3 years' hands-on practice.

Held at the adobe home of Cynthia and Uzi, our course will be one of **total immersion** in the Art of Jin Shin Jyutsu. In our experience of Nature's abundant beauty, we can get to KNOW (and recognize) the qualities of **the Depths** that we hear within the Pulse and in the body.

All will receive a session each day, and each will be our body-reading model once during the class. We'll precede and follow each hands-on session with exercises Cynthia's developed in her seventeen years of teaching, helping to extend what we hear, see and feel in pulse, body and intuition. With experimental and concentrated practice of **pulse listening and body reading**, barriers to our awareness and understanding melt.

Attending via Zoom may be an option (please inquire).

Students can opt to practice hands-on as self-care.

A shaded outdoor class-space is available, should social-distancing be recommended.

This class will be preceded by a **Pulse Listening STC** in Santa Fe (August 13-15).

Other topics include:

- * Deepening our sense of touch
- * Refining the skills of BEing the Artist
